

CADILLAC CUE TOUCH SCREEN REMOVAL INSTRUCTIONS

You will need to use a plastic spudger tool to remove the trim. The only exceptions are when you remove the ignition switch assembly and when you remove the leather trim to the right of the radio, those pieces will need to be taken off by hand. Disconnect any electrical connectors you encounter during this removal process.

Step 5:
Remove leather trim to the right of the radio

Step 6:
Remove chrome bezel trim around radio
